NY ENDOVASCULAR SUMMIT: ADVANCED THERAPIES FOR COMPLEX VASCULAR DISEASE

October 15-16, 2021 | New York, NY

Target Audience

This program is designed for Vascular Surgeons, Interventional Cardiologists, Interventional Radiologists, Internists, Podiatrists, Endovascular Fellows, Nurses, Technicians, and other Allied Health Care Professionals.

Educational Goal

The purpose of this activity is to provide participants with an effective approach in the management of peripheral artery disease (PAD) and venous disease.

Learning Objectives

- Describe the indications, risks, and complications of interventional therapies in the treatment of cardiovascular disease, peripheral artery disease, and critical limb ischemia
- Identify and explain contemporary approaches in peripheral vascular management (including carotid, renal and mesenteric, SFA, below the knee, venous disease and aortic), based on recent clinical trials and evidence-based data
- Explain appropriate applications of new endovascular technologies for patients with vascular disease
- Describe appropriate pharmacologic management in the care of patients with cardiovascular disease, peripheral artery disease, and critical limb ischemia
- Discuss various testing modalities and comprehensive spectrum of care in patients with foot ulcers and threatened limbs
- Explain proper use and interpretation of diagnostic tools and apply appropriate screening techniques for peripheral artery disease
- Identify the roles and responsibilities of multidisciplinary members of a comprehensive PAD clinical team
- Describe the appropriate use of closure devices in PAD
- Discuss the role of drug-coated technologies in light of the new FDA recommendations

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of *CMEsolutions* and Gaffney Events.
